

DO YOU SUFFER FROM ANY OF THE FOLLOWING?

- Chronic lower back pain causing referred sciatic pain.
- Pain, ache, throbbing and numbness affecting lower limbs.
- Difficulty when first moving.
- Stiffness and ache in the neck and shoulder area.
- General ongoing back pain.

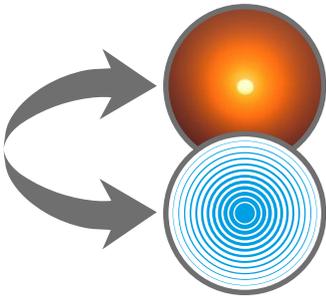

THE BENEFITS OF CYCLO-SSAGE THERAPY.

The Cyclo-ssage Therapy System is designed to support the lower back, hip and the knee joints in a comfortable and relaxing position during your regular therapy sessions.

Any damage or abnormality of the spine will cause muscle spasm as it's the body's natural protective reaction. By creating a restrictive mobility situation you are far less likely to further damage your back and less likely to experience the acute pain associated with spinal movement or lifting. However, the legacy of muscle spasm is a continuous nagging ache.

A combination of far infrared heat and Cycloidal Therapy will increase blood circulation resulting in accelerated healing, relaxing muscle spasm and alleviating ache and pain. Pressure on the sciatic nerve can also be reduced, relieving the pain, discomfort and immobility often associated with Sciatica.

FREQUENTLY ASKED QUESTIONS

6 INFRARED
Heat Lenses

Combined
with

9 CYCLOIDAL
Massage Units

What does the term Cyclo-ssage mean?

Cyclo-ssage is short for Cycloidal Massage, a non-invasive multidirectional massage action.

How does the Cyclo-ssage System work?

This full body, portable massage system uses a combination of 9 cycloidal massage units and 6 infrared heat lenses to help alleviate the secondary symptoms of a variety of health conditions.

How will the Cycloidal Massage benefit me?

The non-percussive and controllable massage action will increase blood and lymphatic circulation by stimulating deep muscle activity.

How will the infrared heat benefit me?

The controllable and soothing infrared heat will penetrate deep into soft tissue, dilating blood vessels, relaxing tired and aching muscles.

What is the likely outcome of using the Cyclo-ssage System regularly?

Combining massage and heat treatments regularly is a very effective method of providing on-going pain relief while also helping the body generally work more efficiently.

Where can the Therapy System be used?

The fully portable System can be used on any flat surface such as a bed or even on the floor.

Is it simple to operate?

Yes: A hand held digital control will allow you to time and select your own personal treatments.

Is it expensive to use?

No: It operates on a 12v transformed power supply using a maximum of approximately 85 watts.

Do you have any customer testimonials?

You can view numerous testimonials on our website from medical professionals and customers who have found the system be a viable alternative to prescribed medication including painkillers.

Is it medically approved?

The Cyclo-ssage Therapy System is an approved medical device, designed and engineered exclusively for Cyclo-ssage to the highest possible standards for individuals who suffer from chronic and disabling conditions.

Do I have to pay Vat?

The System can be zero rated for Vat if you purchase the System for your personal use and you complete a self-declaration form stating that you suffer from a qualifying chronic medical condition.

SOME OF OUR MANY CUSTOMER TESTIMONIALS

I am very pleased with my Cyclo-ssage and my back has been much better since I have been using it on a daily basis. I would say my back pain is more than 50% improved, which means that I am now able to do things that I haven't been able to do for a very long time.

Denis Moreton

This is the only treatment that reduces my pain when I have exhausted my limit on analgesics. The warmth from the infrared lamps as well as the gentle vibration consistently takes the edge off the pain and allows me some respite.

Trevor Hanson

I suffer from severe lower back pain, what they call a mechanical back which gives me shooting pains, particularly in my left side and I can't believe what a difference it has made. The beauty of it is so relaxing. I use it twice a day and it's not a chore it's an absolute pleasure!

Mrs. Graham

20-MINUTE FREE TREATMENT

We would like to invite you to have a personal 20-minute demonstration.

Find out how Cyclo-ssage can help you manage your back pain and sciatica.

WHAT HAPPENS DURING A TREATMENT?

NO PRESSURE SELLING

Cyclo-ssage has been established for a decade as a professional and caring company that has a genuine interest in the health of others. You will have the opportunity to personally experience the effectiveness of a Cyclo-ssage treatment so that you can make a considered and informed decision.

YOU AND YOUR CONDITION

Before beginning a treatment you will be asked about your condition and how it affects you personally. You will then be asked to rate your level of pain before, and then again after the treatment has finished. This will clearly establish that the treatment has alleviated the secondary symptoms of your condition.

A 20-MINUTE TREATMENT

A specific therapy programme will be selected to alleviate the secondary symptoms of your particular condition. After a twenty-minute treatment the vast majority of people experience a significant reduction in pain and ache, increased flexibility and a general feeling of well-being and relaxation.
