

DO YOU SUFFER FROM ANY OF THE FOLLOWING?

- Ache and stiffness
- Cardiovascular problems
- Loss of feeling in hands and feet
- Dizziness
- Lightheadedness
- Vision complications
- Increased urination
- Raised blood pressure
- Impaired kidney function

THE BENEFITS OF CYCLO-SSAGE THERAPY.

Daily treatment using the Cyclo-ssage Full Body Therapy System will alleviate aching and stiffness using a combination of far infrared heat and cyclodial vibration.

The unique action of the Therapy motors creates multi-directional waves that penetrate muscle and tissue easing ache and stiffness. This in turn dilates blood vessels, arteries and tiny capillaries found near the extremities of the body, fingers and toes etc.

Left untreated these vessels can start to shut down due to the poor circulation caused by the Diabetes. By dilating these vessels on a daily basis the possible onset of Peripheral Neuropathy can be delayed and even stopped. If already a sufferer, then the slowing of further deterioration can be achieved.

FREQUENTLY ASKED QUESTIONS

6 INFRARED
Heat Lenses

Combined
with

9 CYCLOIDAL
Massage Units

Regular use of the Cyclo-ssage will allow relief from many of the secondary symptoms experienced by Diabetes sufferers, allowing for an improved quality of life with reduced medication.

What does the term Cyclo-ssage mean?

Cyclo-ssage is short for Cycloidal Massage, a non-invasive multidirectional massage action.

How does the Cyclo-ssage System work?

This full body, portable massage system uses a combination of 9 cycloidal massage units and 6 infrared heat lenses to help alleviate the secondary symptoms of a variety of health conditions.

How will the Cycloidal Massage benefit me?

The non-percussive and controllable massage action will increase blood and lymphatic circulation by stimulating deep muscle activity.

How will the infrared heat benefit me?

The controllable and soothing infrared heat will penetrate deep into soft tissue, dilating blood vessels, relaxing tired and aching muscles.

What is the likely outcome of using the Cyclo-ssage System regularly?

Combining massage and heat treatments regularly is a very effective method of providing on-going pain relief while also helping the body generally work more efficiently.

Where can the Therapy System be used?

The fully portable System can be used on any flat surface such as a bed or even on the floor.

Is it simple to operate?

Yes: A hand held digital control will allow you to time and select your own personal treatments.

Is it expensive to use?

No: It operates on a 12v transformed power supply using a maximum of approximately 85 watts.

Do you have any customer testimonials?

You can view numerous testimonials on our website from medical professionals and customers who have found the system be a viable alternative to prescribed medication including painkillers.

Is it medically approved?

The Cyclo-ssage Therapy System is an approved medical device, designed and engineered exclusively for Cyclo-ssage to the highest possible standards for individuals who suffer from chronic and disabling conditions.

Do I have to pay Vat?

The System can be zero rated for Vat if you purchase the System for your personal use and you complete a self-declaration form stating that you suffer from a qualifying chronic medical condition.

SOME OF OUR MANY CUSTOMER TESTIMONIALS

I am loving my new system, I am already feeling less stiff each morning and the first walk downstairs is easier. My husband also says the lack of feeling in his feet is improving due to better circulation.

Sue Aldous.

I have also noticed increased energy levels in general and working nights as a nurse puts a lot of pressure on the body – but I have noticed a difference in how I feel at work as well. My husband was shocked at first when I told him I was buying it but now he uses it on a regular basis and I have even found him asleep on it before.

Dianne Hughes.

Being in a wheelchair meant that my ankles used to swell because the circulation couldn't go back up my legs, but by using the System that has gone. It is very popular in the house and we almost need an appointment book for it now – I wouldn't hesitate to recommend it.

20-MINUTE FREE TREATMENT

We would like to invite you to have a personal 20-minute demonstration.

Find out how Cyclo-ssage can help you manage your Diabetes.

WHAT HAPPENS DURING A TREATMENT?

NO PRESSURE SELLING

Cyclo-ssage has been established for a decade as a professional and caring company that has a genuine interest in the health of others. You will have the opportunity to personally experience the effectiveness of a Cyclo-ssage treatment so that you can make a considered and informed decision.

YOU AND YOUR CONDITION

Before beginning a treatment you will be asked about your condition and how it affects you personally. You will then be asked to rate your level of pain before, and then again after the treatment has finished. This will clearly establish that the treatment has alleviated the secondary symptoms of your condition.

A 20-MINUTE TREATMENT

A specific therapy programme will be selected to alleviate the secondary symptoms of your particular condition. After a twenty-minute treatment the vast majority of people experience a significant reduction in pain and ache, increased flexibility and a general feeling of well-being and relaxation.
