- Muscle Spasm
- Core Instability

THE BENEFITS OF CYCLO-SSAGE THERAPY.

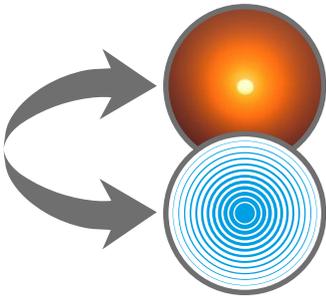

Regular use of the Cyclo-ssage will enhance limb co-ordination and movement sequence. This in turn will stimulate the immune system and suppress the inflammatory phase associated with the condition.

Cyclo-ssage will relax tired and aching muscles increase circulation and encourage production of endorphins. This in turn will increase energy levels, putting you in control of your condition rather than your condition controlling you.

Daily use will afford a high level of pain relief and because of the benefit of accumulation this very quickly becomes continuous.

Therapy sessions are enjoyable relaxing and completely devoid of complications. Users can engage in self-therapy at will and benefit from ongoing relief of many secondary symptoms.

FREQUENTLY ASKED QUESTIONS

6 INFRARED
Heat Lenses

Combined
with

9 CYCLOIDAL
Massage Units

What does the term Cyclo-ssage mean?

Cyclo-ssage is short for Cycloidal Massage, a non-invasive multidirectional massage action.

How does the Cyclo-ssage System work?

This full body, portable massage system uses a combination of 9 cycloidal massage units and 6 infrared heat lenses to help alleviate the secondary symptoms of a variety of health conditions.

How will the Cycloidal Massage benefit me?

The non-percussive and controllable massage action will increase blood and lymphatic circulation by stimulating deep muscle activity.

How will the infrared heat benefit me?

The controllable and soothing infrared heat will penetrate deep into soft tissue, dilating blood vessels, relaxing tired and aching muscles.

What is the likely outcome of using the Cyclo-ssage System regularly?

Combining massage and heat treatments regularly is a very effective method of providing on-going pain relief while also helping the body generally work more efficiently.

Where can the Therapy System be used?

The fully portable System can be used on any flat surface such as a bed or even on the floor.

Is it simple to operate?

Yes: A hand held digital control will allow you to time and select your own personal treatments.

Is it expensive to use?

No: It operates on a 12v transformed power supply using a maximum of approximately 85 watts.

Do you have any customer testimonials?

You can view numerous testimonials on our website from medical professionals and customers who have found the system be a viable alternative to prescribed medication including painkillers.

Is it medically approved?

The Cyclo-ssage Therapy System is an approved medical device, designed and engineered exclusively for Cyclo-ssage to the highest possible standards for individuals who suffer from chronic and disabling conditions.

Do I have to pay Vat?

The System can be zero rated for Vat if you purchase the System for your personal use and you complete a self-declaration form stating that you suffer from a qualifying chronic medical condition.

SOME OF OUR MANY CUSTOMER TESTIMONIALS

Our Cyclo-ssage is incredible, thank you. Our members love it for pain relief, helping to stimulate circulation and relaxation. Our members families love it for a bit of me time and to relax tired muscles. Our visitors love it because they've never seen one before and we love it because it keeps all our people happy.

MS Therapy Centre
Swindon

I use an electric wheel chair and tri walker. The unit was amazing and gave me such relief from muscular pain for about three hours after just my trial session. The heated shoulder and pelvic area soothed my nerve and joint discomfort considerably. I also felt rested and revived, which is a wonderful blessing for me.

Katherine Ratcliffe

I have MS. After a treatment I had less pain in my hips and knee than I've had in ages. I took a short walk with your rep and walked further and more easily than I have in weeks. This morning I put a load of washing in the machine and managed to stand up again without my knees locking. I feel more supple and I also had a bit more feeling in my fingers.

20-MINUTE FREE TREATMENT

We would like to invite you to have a personal 20-minute demonstration.

Find out how Cyclo-ssage can help you manage your Muscular Sclerosis.

WHAT HAPPENS DURING A TREATMENT?

NO PRESSURE SELLING

Cyclo-ssage has been established for a decade as a professional and caring company that has a genuine interest in the health of others. You will have the opportunity to personally experience the effectiveness of a Cyclo-ssage treatment so that you can make a considered and informed decision.

YOU AND YOUR CONDITION

Before beginning a treatment you will be asked about your condition and how it affects you personally. You will then be asked to rate your level of pain before, and then again after the treatment has finished. This will clearly establish that the treatment has alleviated the secondary symptoms of your condition.

A 20-MINUTE TREATMENT

A specific therapy programme will be selected to alleviate the secondary symptoms of your particular condition. After a twenty-minute treatment the vast majority of people experience a significant reduction in pain and ache, increased flexibility and a general feeling of well-being and relaxation.
