THE BENEFITS OF CYCLO-SSAGE THERAPY.

Regular use of the Cyclo-ssage Therapy System will help to alleviate many of the secondary symptoms associated with stress, tension, insomnia and migraines, by relaxing stiff and aching muscles and increasing energy levels. Therapy System induces calm and comforting state by using a combination of far infrared heat and cycloidal vibration, which will also counter further aggravation caused by repetitive strain.

Repetitive strain can be caused by any repetitive action, which can be commonly experienced in the workplace in situations such as sitting at a computer desk for extended periods. This type of repetitive strain causes neck and shoulder tension very often leading to headaches and migraines.

Cyclo-ssage will also help to relax the entire body in a very comfortable and enjoyable way. This can result in improved sleep patterns ensuring a deep and beneficial nights sleep, enabling you to wake feeling rested, energized and in control.

SOME OF OUR MANY CUSTOMER TESTIMONIALS

I even get a much better night's sleep. The only time the pain returns with a vengeance are if I am unable to gain access to the Cyclo-ssage. To say that I highly recommend it is putting the situation too mildly. I cannot imagine living without it.

George Jenner

The main symptoms are all over body pain, chronic fatigue, stress and anxiety. I recently purchased the Cyclo-ssage Pro Personal Therapy System and found that after using it a couple of times a day I am much more relaxed and my pain has eased considerably.

Helen Oates

The unit was amazing and gave me such relief from muscular pain for about three hours after my trail session. The heated shoulder and pelvic areas soothed my nerve and joint discomfort considerably.

Katherine Radcliffe.

WHAT HAPPENS DURING A TREATMENT?

NO PRESSURE SELLING

Cyclo-ssage has been established for a decade as a professional and caring company that has a genuine interest in the health of others. You will have the opportunity to personally experience the effectiveness of a Cyclo-ssage treatment so that you can make a considered and informed decision.

YOU AND YOUR CONDITION

Before beginning a treatment you will be asked about your condition and how it affects you personally. You will then be asked to rate your level of pain before, and then again after the treatment has finished. This will clearly establish that the treatment has alleviated the secondary symptoms of your condition.

A 20-MINUTE TREATMENT

A specific therapy programme will be selected to alleviate the secondary symptoms of your particular condition. After a twenty-minute treatment the vast majority of people experience a significant reduction in pain and ache, increased flexibility and a general feeling of well-being and relaxation.
